STUDENT ARMY VANGUARD ARRIVES

Influx Which Will Fill Normal Has Begun—Faculty Meeting Is Opening Feature

The vanguard of the student army at Eastern Normal was recorded Saturday morning, more than a score arriving from remote parts of the state. Most of the early arrivals are those residing in portions of the state not affording the best train facilities, thus compelling the to start early in order to make the trip, since Sunday trains in some localities are almost unknown, when small town accommodations are considered.

There was a surprise in store for Miss Marie L. Roberts, dean of women, who has been arranging a schedule of accommodations and placing the students along the line of reservation. Long before the week was finished she discovered that the number for this time of the year exceeded that of former years by many. It is believed the opening of the cottages for the first time in the school's history for this purpose will be necessary in order to accommodate the large number. This indicates another very successful year.

The arrivals are expected to increase during Sunday, and Monday is expected to be a big day, since there will be an influx, according to the enrollment, that will tax the efforts of the entire receiving service. The buildings were never in better condition and there has been a constant reporting of faculty members, returning from their summer work. Few of them enjoyed a vacation, almost everyone engaging in some special work during the summer. All teachers have reported and the faculty is complete and prospects are good for another record-breaking term.

The list of studies is greater, the lines of special entertainment and training more extensive and there will be a line of sports introduced that will appeal to all. The first faculty meeting, in preparation for the start the first of the week, called to order on schedule time Saturday afternoon by President T. J. Coates, who also presided, was productive of much interest, instruction and enjoyment. There was a meeting of the members of the faculty, who had an opportunity to exchange greetings and discuss the work before them. It is believed by the officers that the corps of instructors and faculty as a whole is the most complete and competent while it is known to be the most extensive in the school's history.

The regular studies will be well under way the first week and the various branches will be taken up by the newcomers as the week advances. All have been properly assigned, with the exception of those not reporting the special lines desired, and this will be done upon their arrival. The unusual attendance speaks well for the efforts of the officers and instructors of the university during the campaign for patronage and the highly successful year closed some time ago is placed on record as one very complimentary to all.

K. OF P. DEGREE TEAM IS COMPLIMENTED BY VISITORS

There were a number of visitors at the last meeting of the local Knights of Pythias lodge who complimented members of the degree team conferring the third rank on a number of candidates. There was to have been a big list of men to take this degree; however, several found it impossible to be present. The team, which is just getting well organized since the war, is doing what is termed most excellent work and there will be much of it done, according to the petitions for membership being received. There were a number of applications received and there will soon be considerable business at the meeting on next Thursday night. The membership of this organization is receiving an unusual impetus throughout the country. However, there are few making better records than the Richmond lodge.

HEAVY FROST 19 YEARS AGO TODAY IN RICHMOND

"Speaking of frosts," said R. C. H. Covington, "I will remind you that 19 years ago today there was a heavy frost—one that wrought great damage to corn and what tobacco there was at that time, although the production was nothing, as I remember, to what it is at present." Mr. Covington said also that a heavy frost at this time would not only play havoc with tobacco, but would certainly be very injurious to corn, since stalks are very green and still growing, owing to the continued rains.

Weather For Kentucky

BELIEVE BOMB MEN WILL BE CAPTURED

(By Associated Press)
New York, Sept. 18.—Confidence that the American anarchist fighters, who it is believed caused the disastrous explosion in Wall Street Thursday, will be brought to justice soon, was expressed today by Chief Flynn, of the Bureau of Investigation of the Department of Justice. Flynn, who is in charge of the investigation of the explosion which killed 36 and injured 200, and caused property damage estimated at several million dollars. It is certain from the similarity of circulars found in a mail box near Wall Street at the time of the explosion, to those found upon the scene of various bomb explosions in June, 1919, that the same crowd of terrorists is responsible for both outrages. The circulars demanded the government's release of political prisoners or "sure death for all of you."

FINLAND-SWEDEN ACCEPT FINDING

Paris, Sept. 18.—Finland and Sweden have agreed to accept the finding of the League of Nations council for a settlement of their dispute over the possession of the Island of Åland. It is the first time since its organization the League has been asked to arbitrate between two nations in an endeavor to avoid war and is regarded as a long step toward the recognition of the League by nations of the world as a medium for the prevention of future wars. The council expects to reach an early decision.

HARDING TELLS FOREIGN BORN ABOUT THE LAWS

Marion, Ohio, Sept. 18.—Warning against dangers of hyphenated citizens, Senator Harding told a gathering of foreign-born Americans here today he believed the United States must avoid meddling with the affairs of other nations if all classes of American citizens are to be united loyally to the government. The republican nominee said he did not blame the foreign-born for conflicting sympathies during the war, but did blame the nation itself, because it had not thoroughly Americanized them. The government must take up Americanization work with more determination, he said.

LOWDEN CANDIDATES LEADING IN ILLINOIS PRIMARY ELECTION

(By Associated Press)
Chicago, Sept. 18.—With only 290 precincts missing, John Boglesby, supported by Governor Lowden, is leading Lem Small, backed by Mayor Thompson, for the republican gubernatorial nomination 3,218 votes. In the republican senatorial race, with 321 precincts missing, Congressman William McKinley, Lowden candidate, is 19,995 votes ahead of Congressman Frank L. Smith, Thompson man.

DEATH OF MISS EMBRY

Miss Mary Embry, 68, died Saturday at her home at Waco after having been ill for some time of apoplexy. Funeral services were arranged for Sunday afternoon at 3 o'clock at the Richmond cemetery, Rev. O. O. Green officiating. Miss Embry is survived by two sisters and one brother, John Embry, of Oregon.

BLANTON CHANGE

Progress on the streets is rapidly approaching on East Main street, and commencing the first of the week the streets in front of L. R. Blanton's coal yard will be completely torn up, making it impossible for the entrance fronting on Main street to be used until the concrete is laid. Mr. Blanton is fortunate in having two entrances, one also facing on Irvine and B streets, which will be used during the time the streets are closed against traffic. Mr. Blanton says he is willing to send his teams and workmen to help any of his customers who might have their wagons stalled and will assist in the hauling of purchases made at their coal yards. Don't forget the back entrance is open to the public commencing Monday and all orders will be taken care of promptly.

TWO RICHMOND MEN TO GO UNDER KNIFE

Government Hospital Opens Monday and the First Operations Are Booked For That Date

The first operations at the new government hospital department, established at the Pattie A. Clay Infirmary, as a result of the establishment of a hospital unit, will be performed Monday, an two young men from Richmond will be the first to go under the knife, according to the plans of Dr. O. F. Hume, who has arranged for the opening. They will be Rodes Terrill and Oscar Stanifer, and the treatment will be for hernia.

These young men were among the big list presenting themselves at Ft. Thomas, Ky., in 1916, during the Mexican trouble, when volunteers were called for. There is a coincidental feature that has been manifested throughout several years past connecting these two ex-service men. They found themselves together at the recruiting station, both eager to go to the Mexican border. They were examined and refused service, and this disappointing fact was recorded by a Richmond man, Mr. Stone Norman, now secretary of the Home Service of the Red Cross, who was assisting mustering officer at Ft. Thomas during the uprising. The young men returned home and later, during the year 1917, when the German menace developed, again went forward, with very similar results, although they finally succeeded in getting into the service. While the proposed operations are said to be serious in a way, it is not believed there will be cause for great apprehension as a result.

There will be others booked for operations in the near future when the establishment gets under way, since there are many who are especially desirous of receiving treatment, since they have found that this will be possible at home instead of being sent from home, to which many had a deep aversion.

McSwiney In a State of Complete Exhaustion

London, Sept. 18.—Lord Mayor McSwiney, of Cork, Ireland, "passed a very bad night without sleep and this morning is in a state of complete exhaustion, as he began his 37th day of a hunger strike at the Brixton prison," said a bulletin issued this forenoon by the Irish Self-Determination Leagues.

Anthraxite Miners Expected To Return To Work Monday

Hazleton, Pa., Sept. 18.—A full resumption of operations in the anthracite coal region is expected Monday as the result of a telegram just received from Secretary of Labor Wilson, by the policy committee of the United Mine Workers, promising that their claims would be considered for increased wages by the 100,000 striking miners if they returned to work as requested by the committee, the union officials said today.

BIG COAL AND RAILWAY COMPANY IS ORGANIZED

The Kentucky Coal and Railway Company has been organized with a capital stock of \$1,500,000. The coal lands, principally in Breathitt and partly in Perry and Knott counties, comprise 12,000 acres. There are five seams of steam and domestic coal on the property, and the seams range from 42 inches to 7 feet in thickness. The main offices of the company will be in Middlesboro.

HENRY COUNTY HAS 13,411

The census bureau has announced the population of Henry county as 13,411, compared with 13,716 in 1910.

WOMEN'S BONDS RAISED TO \$12,500

Mrs. Lizzie Finney and Miss Florence Turpin Waive Examining Trial In County Court

Saturday morning in the Madison county court, Mrs. Lizzie Finney and Miss Florence Turpin, charged with obtaining money under false pretenses, waived examining trial, and the case will be referred to the grand jury which meets next month.

The bond of Mrs. Finney, placed at \$5,000 at the time of the arrest a few days ago, was increased to \$10,000. There was an effort upon the part of County Attorney O. P. Jackson and Attorney A. R. Burnam, assisting in the prosecution, to have the bond of both women increased. However, the intervention of Attorney C. C. Wallace and W. T. Short, for the defendants, resulted in the bond of Miss Turpin remaining at \$2,500. The bond was arranged in the office of County Judge W. K. Price, who presided, by J. H. Turpin, father of the defendants.

The charges were filed by Mrs. Sarah Finney, mother-in-law of Mrs. Lizzie Finney, who asserted in the affidavits that the latter, by fraudulent statements, caused her to believe she and her daughter-in-law were being secretly sued and their reputations were to be ruined and perhaps both sent to the penitentiary in case money was not provided, whereupon, she asserts, she sold a farm and gave Mrs. Lizzie Finney a check for \$15,316.70. Mrs. Sarah Finney asserts also that Miss Florence Turpin, sister to Mrs. Lizzie Finney, who was present at several of the conferences, corroborated the statements of Mrs. Finney, and that later, she was persuaded into giving \$4,000 additional. One of the charges is jointly against the women, and the other, for the greater amount, against Mrs. Lizzie Finney individually, as the receiver of the money. The latter has stated she never received the \$4,000.

Mrs. Lizzie Finney, who has been residing in Akron, O., for some time, returned to Estill county with her father and sister, after the settlement of the bond.

TURKISH FEZ DISAPPEARS WITH MARCH OF PROGRESS

(By Associated Press)
Constantinople, Sept. 17.—With the crumbling of Turkish authority and influence, the fez, the badge which all Turkish subjects, Christians, Jews and Turks alike are supposed to wear, is rapidly disappearing. Although the Moslems still wear their fezzes in the streets, they no longer cling to them slavishly indoors. Soon the Turks may be wearing hats with brims in Constantinople. Moslems in other parts of Turkey insist the Mohammedans in the capital lost their religion long ago through their desire to imitate the infidels.

Morris Calico, 24, and Miss Ona Wallace, of Cartersville, were granted license to marry. They were 24 and 23 years of age, respectively.

The attendance in school has not been so good during the past two weeks because of tobacco cutting and sickness in the community.

AMERICAN LEGION IS GROWING FAST

Indianapolis, Ind., Sept. 18.—In the past year the American Legion has settled claims aggregating \$10,000,000 in favor of former soldiers and sailors or their dependents, according to the annual report of National Adjutant Lemuel Bolles which will be submitted at the national convention of the Legion which convenes in Cleveland September 27.

Of this amount, claim totaling more than \$1,250,000 were adjusted by the service division of national headquarters, where only the complicated cases are handled. The remainder were settled by the service officers of the state departments and of local posts. Of the 9,700 post in the Legion, more than 8,000 now have service officers.

This one feature of Legion activity has been one of the best drawing cards for new memberships. Since November, 1919, Mr. Bolles' reports shows the Legion has grown from 4,000 posts in 50 departments to 9,700 posts in 70 departments. The enrolled membership has passed the 2,000,000.

Going To Front Porch

(By Associated Press)
Louisville, Sept. 18.—A hundred and twenty-five Kentucky republicans will leave here Sunday night on a special train for Marion, Ohio, where they will be addressed on Monday by Senator Harding. Governor Morrow is chairman of the delegation.

State Fair Is Winner

Louisville, Sept. 18.—The State Fair attendance Friday was 33,000 bringing the total for the five days to about 104,000 making a record for four days. Another immense crowd is at the fair today, the last day. The Times quotes the fair officials as estimating the profit at \$100,000.

KIRKSVILLE

Miss Lula Rhodus entertained Wednesday night in honor of her guest, Miss May Turpin, of Junction City. Those present were: Misses Anna White, Myrtle King, Ruby Bowlin, Nettie White, and Miss Turpin, and Messrs. Charlie Coy, Elbert Bowlin, John Ledford, Wilson Browning, Jesse Rhodus and Vernon Coy.

Miss Stella Broadbudd has returned to her home after a delightful visit with friends here.

Mrs. Oscar Helton who has been quite ill, is able to be out again.

Mr. Harold Hendren and Miss Hattie Lee Taylor surprised their many friends by motoring to Louisville Thursday where they were married. They were accompanied by Mr. and Mrs. Carter Blakeman. UNITE ALL EFFORTS TO SOLVE MYSTERY

Senator Brock Here With Bludgeon That Killed Teacher—Noted Sleuths At Work

While the grand jury at Harlan which has been investigating the mysterious slaying of Miss Lura Parsons, a young school teacher near Dillon, has adjourned until Monday, there is no let up in the work of investigating the heinous crime, and reports have it that there will be some sensational developments during the next few days. Special detectives from Cincinnati have been employed on the job of ferreting out the perpetrator of the crime, and they are working night and day, it is said. There are many noted persons interested in the developments, since they assert they will leave no stone unturned to fathom the mystery and bring the guilty to justice.

Among these is Senator H. M. Brock, who has been very actively engaged in the work of investigation since the reporting of the crime. The special detectives are being rendered all assistance possible, and they are advancing along a line of investigation that may be productive of interesting developments at any time. One of them especially is recognized in Cincinnati and other large cities as being one of the shrewdest workers and solvers of mysteries in the country. He has been offered more lucrative work, together with a title in the official world, by one of the great detective agencies, but has refused, being desirous of doing all good possible in his home and vicinity.

Senator Brock, accompanied by J. J. Tye, of Barboursville, was in Richmond en route to a northern city. They had in their possession the piece of rail, or rough slab of wood, with which it is almost positively known the unfortunate woman was beaten to death. This ghastly trophy is to be minutely examined for various reasons and full directions and instructions are in possession of those in charge of the bludgeon. This examination may develop an indirect or even a direct clue, but this is all that is known of this phase of the case at this time.

STORE OPENING

Muncy Brothers' branch store at Berea opened Friday morning and a stream of visitors thronged the store throughout the day. These boys made an extensive advertising campaign throughout that section and the people of the community responded liberally. The opening continues throughout Saturday and a great deal of interest is being manifested in the drawing, which will be held at 4 o'clock, when a beautiful rocking chair will be given away. Friday a splendid aluminum set was given to one of the visitors at the store during the day. The visitors were entertained with music and a splendid feeling of friendship was made by the Muncy Brothers. On Monday evening arrangements have been made to give a recreation concert with Edison artists presenting the program, which appears on another page in today's paper. The people of Richmond and community are especially invited to attend this free concert Monday evening.

Circuit Court Docket Will Be Extensive

There will be the usual number of miscellaneous cases heard during the next term of the Madison Circuit Court, comprising damage suits, larceny cases, and a number which, it is said, will be piled up as a result of the investigation by the grand jury, which will be in session for some time, so reports go. It is claimed there will be quite a list of cases for this body to investigate. There, added to the list, will make the term a busy one, judging from present indications.

The popular favorites amongst the pacers this year are the three wonderful mares, Margaret Dillon, unbeaten, owned in Massachusetts; Juno, that has lost but one race, owned in Ohio, and Princess Mary, beaten but once, owned in Canada. No year ever saw three like them and they will meet in the Cumberland state at Lexington, October 6. In that race, however, there are eleven other winners, including the stake winners Lillian S., Edna Early, Symbol S., Forest and Drift Patch.
